

# MARTIN GARCIA

bookings available in Europe between May and June 2009

Since his beginnings as a professional dj, **Martin Garcia's** artistic evolution was mainly lead by the British dance music industry, which he slowly incorporated and adapted to the local scene.

After playing in different clubs in **Buenos Aires**, his sessions at the internationally acclaimed Clubland nights at **Pacha** made him acquire a weight of his own. From that moment on, he's played many times alongside Sasha, Nick Warren, Jimmy Van M. and Danny Howells, among other artists. He has a smooth mixing technique, and the details of his sound selections have gained him a huge recognition from the great number of progressive house fans along Argentina and Latin America. A success he's also achieved as a producer, either individually or together as a powerful duo with **Hernan Cattaneo**, releasing on labels such as Perfecto, Shinichi and Bedrock.

In 2005 Martin was the first guest dj at London's **Kiss FM** and he entered **number 50 at DJ Mag's ranking**. November and December saw him touring with John Digweed around South America, where he's played many times before in Peru, Brazil, Chile, Uruguay, Paraguay and Colombia.

Present each year at **Creamfields Buenos Aires** line up, he's usually a headliner in events such as Moonpark parties and 1Live! In 2006 he'd already played at **East Fest Punta del Este**, Uruguay's glamour summer spot, and Southfest's third edition (he played at the first one too) and he also made his debut at Miami's Winter Music Conference with a memorable back to back with **Hernan Cattaneo** and a special set for **Frisky Radio**.

When not working on his music (or involved in other artists productions as in **Renaissance's Hernan Cattaneo Sequential**), Martin plays his distinctive progressive, electro, breaks and house blends in clubs across the country and through his weekly Jorney show on **Metrodance 95.1 FM**.
